

RESIDENTIAL CONVEYANCING

Residential property transactions can vary from transaction to transaction as no two transactions will be the same. The reason being that no two properties are the same, no two clients are the same and no two chains will be the same.

Where possible we will provide clients with a fixed fee quotation which will be based on information we obtain from our clients at the outset of the transaction. We will discuss with you the various aspects of the proposed transaction so that we can advise you of the costs and disbursements that will be involved to enable you to budget accurately for your transaction.

What you can expect us to do:

How long will the matter take?

This is a question we are frequently asked and a question that is very difficult to answer as it depends on many factors which may well be related to other parties connected to the sale process. A straightforward transaction should take approximately 4 weeks to exchange contracts provided the matter proceeds smoothly. Completion dates will be agreed between the seller and buyer and other parties in the chain and will therefore depend on dates that can be mutually agreed. If you have a preference for a particular completion date we will endeavour to meet that date but you should be aware that we are not able to insist on a particular date or influence other parties in the transaction which means that delays can arise which will be completely out of our control.
